Introduction

Introducing a child to golf is one of the greatest gifts a parent can share with their child. Not only is golf a game of tremendous fellowship that they can play for a lifetime, but it will also serve them well in their career and in living a healthy lifestyle. Getting started the right way is paramount. The pillars of success center on the following: i) focus on fun, ii) having the right equipment, iii) partnering with a PGA professional and iv) taking advantage of PGA Section resources.

The development of junior golfers is heavily reliant on appropriate instruction and proper group assignment. It is essential for a junior golfer to be properly classified. This will ensure their placement in the proper group based on skill level. This also allows our coaches to guide players through the phases of development using an objective criteria and developmental mind-set. The Hills of Lakeway Junior Golf Program has been up into such levels.
