Driving Range Reminder

The Club supplies practice balls for use on our practice range. Golfers must not use any other balls on the range. Anyone found violating this rule will face disciplinary action up to and including termination of membership.

Care for the Course

We need everyone to assist in the care for the course by filling your divots after each shot. Use sand to fill those divots and smooth the areas so the sand is level with the top of the turf. The sand will promote a rapid recovery of the turf and keep the course looking great. This is especially helpful on the teeing ground of the Par 3's.

Reminder – Practice on the Course is not permitted. Hitting multiple shots from the same location on the course for an extended period of time is not permitted. Please use the practice facility.

Neighboring Private Property

The golf courses are surrounded by private property. Please do not enter neighboring yards to retrieve golf balls. Please pay particular attention to the Out of Bounds stakes, and do not drive the golf cart into neighboring yards.

Golfers are responsible for damage to private property including sprinkler heads, broken windows in homes or cars, and any other damage.
